

# *Hip Santa Cruz & the Chaos Revolution*

*A short talk by Ralph Abraham on the 14-year genesis of the Hip Santa Cruz book & website.*

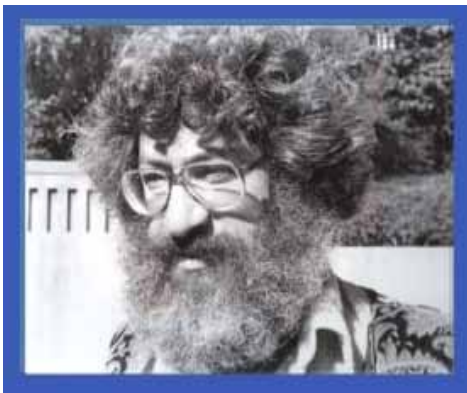

Ralph Abraham—renowned mathematician, historian and raconteur—spent years collecting first person accounts of the 1960's Hip Culture in Santa Cruz, the town he's made home for 50 years.

This book collects those stories from the people who, in the early 60's, woke up this sleepy retirement village with art, music, creativity, psychedelics, alternative schools, communes, protest, and a truly magical way to apprehend the world.
